Introduction

- 1.1 Motivation
- 1.2 Problem description
- 1.3 Approach

Concept

- 2.1 Hardware structure
- 2.2 Communication Flow
- 2.3 Car2X Protocol

Hardware

This chapter describes the basic concept and configuration of the car-system's hardware. A basic knowledge of Altera Quartus II is assumed.

- 3.1 Topology
- 3.2 Configuration QSYS
- 3.3 Configuration Top Level File
- 3.4 Problems
- 3.5 WiPort

Software

- 4.1 Communication Core
- 4.2 CarControl Core
- 4.3 Shared memory Controller
- 4.4 Protocol extensions

Conclusion

Appendix A
